

## Initiative for solving the plastic marine waste problem

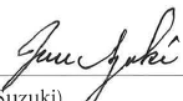

The outflow of plastic wastes to the ocean originates marine pollution and adversely effects on ecosystems. The plastic marine waste problem is a serious problem, and the interest for it rises in the world.

Teijin group has made the "declaration for solving the plastic marine waste problem" as below.

### Declaration for Solving the plastic Marine Waste Problem

The Teijin Group will contribute to the reduction of plastic marine waste through our voluntary efforts of management / recycling promotion of plastic we produce and /or use, and material development.
