

## NEWS RELEASE

### Teijin to Showcase Mobility Technologies and Products via Interactive Site in Response to New Normal Lifestyle

Tokyo, Japan, September 29, 2020 --- [Teijin Limited](https://www.teijin.com) announced today that it will begin introducing its mobility technologies and products to enterprise customers via Teijin Mobility Online <https://teijin-mobility.com/>, an exhibition website launching on October 1. The site will enable customers and the company to stimulate creativities and explore innovation opportunities responding to the new normal lifestyle.

#### **Main Exhibits**

##### ■ **The Teijin Group’s “PU\_PA III” EV concept car**

The PU\_PA III, an environmentally friendly electric vehicle (EV) concept car, is made entirely of proprietary high-performance materials and technologies developed by the Teijin Group. Such materials, and their various functions for components deployed in connected, autonomous, shared and electric (CASE) applications, will be introduced with 360-degree views.

##### ■ **AEV Robotics’ concept car**

Teijin strives to be a company that supports the society of the future by contributing to SDGs, including by offering solutions for automotive applications and co-developing environmentally friendly zero-emission vehicles with Australian venture company AEV Robotics. Teijin Mobility Online will present AEV Robotics’ concept car incorporating components made with high-performance materials and advanced processing technologies from the Teijin Group, and also AEV Robotics’ concept low-speed electric vehicle (LS-EV).

##### ■ **New Tech Zone**

Exciting technologies currently under development, such as those for CASE applications, environmentally friendly materials and smart technologies, also will be showcased.

#### **About the Teijin Group**

Teijin (TSE: 3401) is a technology-driven global group offering advanced solutions in the fields of environmental value; safety, security and disaster mitigation; and demographic change and increased health consciousness. Originally established as Japan's first

rayon manufacturer in 1918, Teijin has evolved into a unique enterprise encompassing three core business domains: high-performance materials including aramid, carbon fibers and composites, and also resin and plastic processing, films, polyester fibers and products converting; healthcare including pharmaceuticals and home healthcare equipment for bone/joint, respiratory and cardiovascular/metabolic diseases, nursing care and pre-symptomatic healthcare; and IT including B2B solutions for medical, corporate and public systems as well as packaged software and B2C online services for digital entertainment. Deeply committed to its stakeholders, as expressed in the brand statement “Human Chemistry, Human Solutions”, Teijin aims to be a company that supports the society of the future. The group comprises more than 170 companies and employs some 20,000 people across 20 countries worldwide. Teijin posted consolidated sales of JPY 853.7 billion (USD 8.0 billion) and total assets of JPY 1,004.2 billion (USD 9.4 billion) in the fiscal year that ended on March 31, 2020.
