

NEWS RELEASE

Teijin to Exhibit at China International Import Expo

Tokyo, Japan, September 24, 2021 --- The Teijin Group announced today that it will participate in the [4th China International Import Expo](#), the largest international exhibition held in China, in the Shanghai National Convention Exhibition Center from November 5 to 10.

Teijin, appearing in the annual show for the second time, will introduce a wide range products and services in the fields of environmental value; safety, security and disaster mitigation; and demographic change and increased health consciousness, areas that feature in the company's long-term vision. The Teijin Group aims to hereby expand its business in China and increase its presence in the global market.

The Teijin booth (3H 3B6-004), will display a number of solutions, including the following:

- **Environmental value solutions** for climate change mitigation and adaptation. These include dust collection bag filters using Teijin's high-performance *Teijinconex*[®] and *Nanofront*[®] materials to remove pollutants contained in flue gas, as well as products to manage pollutants generated in factories, such as wastewater treatment solutions and solvent recovery devices. Teijin technologies being deployed by a Formula E (all-electric) racing team supported by the company will also be on display.
- **Safety, security and disaster mitigation solutions** to protect lives and livelihoods from accidents or natural disasters. These will include conveyor belts used in the mining industry, oxygen cylinders used in fire extinguishing operations and fibrous heating wire strengthened and lightened by Teijin's para-aramid *Twaron*[®].
- **Demographic change and increased health consciousness solutions** including the company's products that support healthy and comfortable lives for people of all ages.

About the Teijin Group

Teijin (TSE: 3401) is a technology-driven global group offering advanced solutions in the fields of environmental value; safety, security and disaster mitigation; and demographic change and increased health consciousness. Originally established as Japan's first rayon manufacturer in 1918, Teijin has evolved into a unique enterprise encompassing three core business domains: high-performance materials including aramid, carbon

fibers and composites, and also resin and plastic processing, films, polyester fibers and products converting; healthcare including pharmaceuticals and home healthcare equipment for bone/joint, respiratory and cardiovascular/metabolic diseases, nursing care and pre-symptomatic healthcare; and IT including B2B solutions for medical, corporate and public systems as well as packaged software and B2C online services for digital entertainment. Deeply committed to its stakeholders, as expressed in the brand statement “Human Chemistry, Human Solutions,” Teijin aims to be a company that supports the society of the future. The group comprises more than 170 companies and employs some 20,000 people across 20 countries worldwide. Teijin posted consolidated sales of JPY 836.5 billion (USD 7.7 billion) and total assets of JPY 1,036.4 billion (USD 9.5 billion) in the fiscal year that ended on March 31, 2021.
