

**NEWS RELEASE****Teijin to Present its Holistic Approach to Net-Zero CO<sub>2</sub> Emissions at JEC World 2023**

**Tokyo, Japan, April 11, 2023** --- [The Teijin Group](#) will showcase a wide variety of sustainable composite products at [JEC World 2023](#) which will take place from April 25 to 27 in Paris. In the company's exhibit, located in Hall 6, Booth G28, Teijin will present its high-performance materials and composites technologies that can improve manufacturing cycle times, reduce environmental impact and improve consumer safety and comfort, depending on the application. Each innovation was developed in keeping with Teijin's vision of, "Net zero is the goal. The solution is composite."

Also, Teijin representatives will gather for a [presentation and Q&A session](#) on 26 April 2023 14:00-14:55 at Agora 5 to give the JEC's audience insights into how Teijin lives up to its promise to become net zero by 2050. In the session, called "The Teijin Group's Holistic Approach to Net-Zero CO<sub>2</sub> Emissions", Teijin will explore the group's commitment focusing on energy and greenhouse gas (GHG) emission reduction, use of renewable raw materials, closed loop products, and the development of a blockchain-based platform for enhancing the environmental value of recycled resources. The session will also delve into the company's use of life cycle assessment (LCA) to provide customers with reliable emissions data and share the importance of partnerships across the supply chain for accelerating sustainable initiatives.

**- About the Teijin Group's Holistic Approach to Net-Zero CO<sub>2</sub> Emissions Session**

Key messages	<ul style="list-style-type: none"><li>- Transparency: Teijin promises to share correct and verified data</li><li>- Partnerships: Teijin believes internal and external collaborations are necessary to make an impact and benefit for its stakeholders</li><li>- Innovation and exploration: Teijin keeps moving towards ambitious end goals though the journey challenging</li></ul>
Speakers	Dr. David KRUG Senior Materials Scientist, Research & Development, Teijin Automotive Technologies Dr. Jan ROOS Director Energy Transition & Sustainable Development, Teijin Aramid Dr. Markus SCHNEIDER General Manager Sustainability, Teijin Carbon Europe Dr. Ton de WEIJER General Manager Innovation, Teijin Limited
Moderator	Martine Dols Head of Corporate & Marketing Communication, Teijin Aramid

JEC World 2023 is organized by the JEC Group, the world's largest composites industry organization with a network of 550,000 composite industry professionals around the world.

## **About the Teijin Group**

Teijin (TSE: 3401) is a technology-driven global group offering advanced solutions in the fields of environmental value; safety, security and disaster mitigation; and demographic change and increased health consciousness. Originally established as Japan's first rayon manufacturer in 1918, Teijin has evolved into a unique enterprise encompassing three core business domains: high-performance materials including aramid, carbon fibers and composites, and also resin and plastic processing, films, polyester fibers and products converting; healthcare including pharmaceuticals and home healthcare equipment for bone/joint, respiratory and cardiovascular/metabolic diseases, nursing care and pre-symptomatic healthcare; and IT including B2B solutions for medical, corporate and public systems as well as packaged software and B2C online services for digital entertainment. Deeply committed to its stakeholders, as expressed in the brand statement "Human Chemistry, Human Solutions", Teijin aims to be a company that supports the society of the future. The group comprises some 170 companies and employs some 20,000 people across 20 countries worldwide. Teijin posted consolidated sales of JPY 926.1 billion (USD 7.2 billion) and total assets of JPY 1,207.6 billion (USD 9.4 billion) in the fiscal year that ended on March 31, 2022.
